THE FEED

?

?

What comes after the feed?

POST-FEED ANSWER

Generative UI.

What is a channel?

DEFINITION

Software that stays alive.

Channels

A channel is software that stays alive

CHANNEL OBJECT

Software that stays alive

Live data, memory, and
intent stay inside one
mutable surface.

01 READ THE WORLD

02 ROUTE THE INTENT

03 KEEP THE STATE

INPUT LAYERS

• Live data

"what now?"

• Context

SPECIALIST AGENT

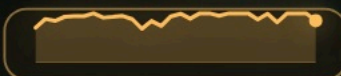

• chooses sources, memory, layout, and next action

MUTABLE SURFACE

• LIVE

\$103.2k

• STATE

ONE CHANNEL

Generating content in realtime

ATTENTION ENGINE

**The platform chooses the next useful state,
not the next post.**
